

Keep Pressing On

Philippians 3:12-14

Don't let yourself get weary
In doing what is right
Don't get discouraged, and don't you worry
'Cause you can win that fight
Be strong in the Lord and the power of His might
And keep on standing firm
'Cause then you'll see the victory
Is already yours

Chorus

You've got to
Keep up the pace to win the race
Keep trusting in Him and you'll know that you win
Keep your eyes on the prize and realize
That it's done, it's done
So keep pressing on

You've got to hold on tight to what is right
And don't be moved by what's in your sight
Keep His Word before you
And don't ignore what He's speaking to your heart
Let patience have her perfect work
As you keep the joy of the Lord
'Cause then the fun has just begun
As you see His Word perform

Bridge

You've got to press on to the upward call
To that heavenly prize, to that grand reward
That He's prepared for you
That's all you have to do

You've got to press on to the upward call
You've got to press on to the upward call
Press on to the upward call
Press on to the upward call
Press on to the upward call
Press on, press on!
